

IIE Hawaii Cambridge Boost Program

This is an optional supplemental course open to any students enrolled in a Cambridge Exam Preparation course (FCE or CAE), but it's particularly for students whose initial placement test results were below the minimum requirement and who otherwise would be placed in a General English course. This course is designed to provide such students with the targeted attention they need to 'boost' the test score above the required minimum. This is the most intensive way to raise FCE and CAE test results in the quickest time possible. After 4 weeks, students are re-tested and if their scores meet the requirement, they can stay in the Cambridge program which will prepare them to sit for their chosen exam (First or Advanced Certificate).

Combining exam paper-specific focus, Cambridge exam strategies, along with one-on-one academic counseling, the IIE Cambridge Boost course gives students the opportunity to make rapid improvement and provides them a second chance to reach their goals and remain in the Cambridge Preparation program and sit the exam.

Benefits

- An intensive course designed to maximize students' potential.
- Up to date resources give the latest information on the exam.
- Weak areas addressed with focused help.

Lesson per Week *	4
Day & Time	Wed/Fri or Tue/Thu, 13:15-15:15pm
Target Audience	Students scoring no more than 10 % below the requirement.
Minimum enrollment**	4 weeks
Class Size	No more than 5 students
2014-2015 Dates	FALL: September 15— November 21, 2014 SPRING: March 23— May 29, 2015
<i>*One lesson is 55 minutes.</i>	
<i>**Any student enrolled in the Cambridge Preparation Program can join the Boost course at any time. Students whose placement test scores do not meet the minimum requirement must enroll in the Boost program for at least the first 4 weeks if they wish to remain in the Cambridge Preparation program or they have the option of switching to the General English program.</i>
